THE SPOTLIGHT

We want our church to grow! Church growth has been a hot topic since Pentecost when the church began. Every church wants to grow and every church member wants to be a part of a growing church. It's important to remember that church growth is not just our desire but a part of God's will for His church. If you are opposed to seeing the church grow, then you are opposed to God's will! But that doesn't mean growth happens naturally. Like every other part of God's plan, doing what's right requires us to be intentional about it. So what can you and I do to grow the church here?

I'm glad you asked! The doctrinal foundation of church growth is built on Jesus Christ. Every Christian wears His name and everything we do should point people toward Jesus. It is Jesus who saves -- that message will never change. However, our outreach methods are rooted in a distinct time and place. In today's world, people rarely visit a church in person until after they've checked us out online. This means that our online presence, including our website, social media platforms, and live streams, is often the first interaction people have with our church. We know first impressions matter and more and more those happen online. If there was something simple you could do to help us make a good first impression, would you be willing to do it? The easiest thing you can do to help us make a better first impression online is to be at services and sit close to the front. Everything in our auditorium and our live stream is focused on the front, so if it's empty, it looks like the whole building is empty. Our singing sounds better when we sit closer to the front, too. Will you meet me down front?

- David
