CHURCH OF CHRIST

THE SPOTLIGHT

I loved getting to see the eclipse last week! Every day, the universe works like a well-oiled machine, but last Monday, we saw it in an unusual way. God has revealed so much knowledge that scientists can predict the time and location of those events with extreme precision. As we study it and learn about the patterns of orbits and rotation, we learn about what is happening around us every day (and has been going on every day since time began). As impressive as that knowledge is, we are still just reacting to how the universe works. Imagine the wisdom of God, who created all that out of nothing. What we witness, He made. What we study and learn about, He designed from scratch. Every detail that we discover, He planned. God's wisdom is shown in His creativity. He didn't have to create the sun, moon, and earth so that they would line up from time to time to produce an eclipse, but He did. He then allowed us to learn the patterns so that we could predict those events. Indeed, "the heavens declare the glory of God; the skies proclaim the work of His hands" (Psalm 19:1).

Last Monday was also a special day for Rodney Newton. On April 8, 2007, this congregation asked him to serve as one of our elders, and for 17 years, he has been a faithful shepherd here. Before that, Rodney served as a deacon of our education program. He has taught many Bible classes through the years and continues to be willing to teach whenever needed. I appreciate Rodney and his wife, Robin, so much, and we are grateful for his continued service as an elder! We pray God's blessings on our current leaders. May we follow them as they follow Christ (1 Corinthians 11:1).
- David

WEDNESDAY NIGHT MEAL

Up in Smoke will be catering our meal on April 24. Please sign up in the lobby if you plan to attend. The cost is \$4.00.
